David Martinson

Full Stack Web Developer | Front End Software Engineer
Portland, OR | 503-451-3170 | david.martinson@hotmail.com | Github: pdxdave | LinkedIn: pdxdave

TECHNICAL SKILLS

Frontend: ReactJs, Redux, Hooks, Context API, Axios, JavaScript, HTML, CSS, StyledComponents, Tailwind
Backend: NodeJs, Express, Python
Database: MongoDB, Airtable, SQLite3
Additional Skills: Figma, Affinity Photo, Netlify, Heroku, Git

PERSONAL PROJECTS

Music 11, *Full Stack Developer*   [Github][API][Website]
Guitar E-Commerce Store
- Used Airtable, an on-line headless content management service, for the database
- Connectivity to Airtable was facility by an API I created using NodeJs and Airtable client library
- useReducer/useContext were chosen for state management to handle product, cart, and user activity
- AuthO was employed for user sign-in required for purchasing products
- Created filters allowing users to parse products by price and brand
- Integrated Stripe, an on-line credit card service portal, for payment transactions

Secrete Family Recipe, *Full Stack Developer*   [Github]
Backend for family recipe project
- Selected Express and NodeJs for the application framework to manage servers and routes
- Utilized SQLite3 for data stores in combination with Knex.js for building queries
- Used Jest and Supertest for testing route requests

The RealEstate Group, *Full Stack Developer*   [Github][Website]
A real estate website to showcase property listings
- Used Airtable for a lightweight, responsive data store and transactions
- Created a robust listings filter: lowest/highest price, by agent, by city, and price range

Experience

BloomTech, Remote   10/2019 to 12/2021
Team Lead
- Served as teaching assistant covering all topics taught at BloomTech: Web Development, JavaScript, React, Computer Science and Labs
- Led teams of up to 16 students for 1:1 code reviews
- Conducted help sessions 3x/week on Slack to explain coding principles and answer student questions

Recruiter Extraordinaire, Portland, OR   04/2014 to Current
Technical Recruiter
- Full life-cycle recruiting: developed new clients; sourced passive candidates, screened, pre-closed and negotiated offers
- Contracted to staff Dealer.com's (a $1B East Coast SasS Co) first satellite engineering office in CA
- Reduced Dealer.com engineering hiring process from 13 weeks to 5 by reorganizing and streamlining tasks, which were later adopted by other departments outside of engineering

Education

BloomTech, *Graduate, Full Time Program, Full Stack Web Development*
University of San Diego, *Graduate, Humanities. Cum laude*
